环境交易　绿色金融

Environmental Trade　Green Finance

背景 BACKGROUND

气候变化问题是21世纪人类生存发展面临的重大挑战，积极应对气候变化、推进绿色低碳发展已成为全球共识和大势所趋。中国政府始终高度重视应对气候变化。习近平主席多次强调，应对气候变化不是别人要我们做，而是我们自己要做，是中国可持续发展的内在需要，也是推动构建人类命运共同体的责任担当。

设立四川联合环境交易所是四川践行习近平生态文明思想的生动实践，是建设国家西部金融中心决策部署中的重要布局落子，是多层次资本市场重要组成部分，是绿色金融体系的重要基础设施，通过发挥市场配置资源的决定性作用，促进四川乃至西部地区经济社会绿色发展、高质量发展。

Climate change has been a serious challenge faced by all human beings in the 21st century. To actively respond to climate change and promote green and low-carbon development , has become a global consensus and a general trend.The Chinese government has always attached great importance to tackling climate change.President Xi Jinping has repeatedly stressed that tackling climate change is not what others want us to do, but what we need to do. This is the inherent need for China's sustainable development, and also the responsibility to promote the building of a community of human destiny.

The establishment of the Sichuan United Environment Exchange is a vivid practice of Sichuan's practice of Xi Jinping's thinking of ecological civilization. It is an important layout for the deployment decision of the western financial center, an important part of the multi-level capital market and an important infrastructure of the green financial system.by means of using market allocation of resources, we can promote the green and high-quality economic and social development of Sichuan and even the western region.

公司简介 COMPANY PROFILE

四川联合环境交易所于2011年9月成立，是四川省人民政府批准，国务院有关部际联席会议备案的交易机构，是全国非试点地区第一家经国家备案的碳交易机构，是全国碳市场能力建设（成都）中心的合署机构，是国家开展用能权交易试点的交易机构，是我省以及成都市排污权交易机构。四川联合环境交易所是全国目前唯一一家集碳排放权、用能权、排污权、水权交易为核心主业的环境资源交易平台，在国内交易机构中率先加入联合国负责任投资原则（PRI），在实际经营活动中践行和倡导以绿色发展为核心的责任投资原则。

近年来，四川联合环境交易所不断强化平台功能，已经形成以环境权益交易为核心主业，以绿色技术交易、自然资源交易为配套主业，以创新发展绿色金融、深入强化能力建设为重要抓手的“4+2+2”业务体系，旨在充分发挥市场配置环境资源的决定性作用，促进环境资源要素化并推动要素流动，为全社会节能减排降碳提供投融资及其他增值服务，促进经济社会绿色发展、高质量发展。

Sichuan United Environment Exchange Co.Ltd. (SCEEX) was established in Sep. 2011.It is a trading institution approved by the People's Government of Sichuan Province and put on record by relevant inter-ministerial joint conference of the State Council.It is the first state registered carbon trading institution in the Non-pilot area. It is the joint institution of the national carbon market capacity building (Chengdu) center and the pilot trading institution for energy-rights and pollution rights in Sichuan and Chengdu. As the only environmental resources trading platform in China, SCEEX provides a wide range of services including the "four environment rights" : carbon emission rights, energy rights, pollution rights, and water rights etc. SCEEX is the first trading institution to join the United Nations principles of responsible investmeet (PRI). SCEEX fulfills and advocates the responsible investment principle that takes green development as the core in the actual operation.

In recent years, SCEEX has continuously strengthened the platform function. It has formed the "4 + 2 + 2" business system with environment rights trading as its core business, with green technology and natural resource trading as its subsidiary business, with creative development of green finance and further strengthening of the ability construction as its method. We aimed at letting the market fully play its decisive role in the allocation of the environmental resources, promoting the environmental resources to be every kinds of elements and strengthening the liquidity of the elements, providing investment, financing and other value-added services for the whole society energy conservation, emissions reduction and carbon reduction, accelerating the green and high-quality development of economy and society.

3. Trading services. Trading account opening, clearing and settlement, information release, information inquiry, transaction management and other services to ensure the smooth and smooth implementation of transactions.

点点碳中和

碳中和服务
Carbon neutral services

碳中和是指政府、企业、组织或个人通过购买碳配额、碳信用或植树造林等方式，抵消其在生产、生活和消费等活动过程中产生的碳排放。

Carbon neutral means that the government, enterprises, organizations or individuals offset the carbon emissions generated in the process of production, living and consumption activities by purchasing carbon quotas, carbon credits or afforestation.

四川环交所“点点碳中和”平台，寓意“减碳多一点，排放少一点”，通过购买碳信用来中和产生的碳排放，为企事业单位和个人践行绿色低碳生产生活提供服务平台。

“点点碳中和”平台具有发布各类活动场景、在线计算碳排放量、在线购买碳信用、颁发电子荣誉证书、碳中和排行榜查询等功能。平台案例多次被新华社、四川日报、川报观察等媒体报道。

The "little Carbon Neutral" platform of Sichuan United Environment Exchange, which means "more carbon reduction and less emission", neutralizes the carbon emissions generated by purchasing carbon credits, and provides a service platform for enterprises, public institutions and individuals to practice green and low-carbon production and life.

The "Little Carbon Neutral " platform has the functions of publishing various activity scenarios, calculating carbon emissions online, purchasing carbon credit online, issuing e-certificates of honor, querying carbon neutralization rankings, and so on. The case of the platform has been reported many times by Xinhua News Agency, Sichuan Daily, Sichuan View News and other media.

低碳综合咨询服务
Low-carbon comprehensive consulting services

我们拥有一支从业背景覆盖了金融、环境、能源、法律和信息技术等领域的专业团队，已圆满完成了一系列国内外低碳相关项目与课题，具有丰富的实践经验。为政府及企事业单位提供低碳发展相关的专业咨询服务，包括碳中和咨询、低碳项目咨询、低碳社区及园区咨询等。

We have a professional team covering finance, environment, energy, law and information technology, and have successfully completed a series of domestic and international low-carbon related projects and topics, with rich practical experience. We provide professional consulting services related to low-carbon development to the government, enterprises and public institutions, including carbon neutral consulting, low-carbon project consulting, low-carbon community and park consulting, etc.

能力建设服务
Capacity building services

全国碳市场能力建设（成都）中心是经国家发展和改革委员会及四川省发展和改革委员会同意依托四川联合环境交易所设立，师资力量和智库团队由国内外30多家有关部门和机构的有关官员、专家和学者构成，面向市场参与方开展各种形式的应对气候变化能力提高活动，助推全国碳市场的顺利启动和平稳运行。

1. 定制服务。根据各类企事业单位实际情况，提供专业化能力提升定制方案并负责实施。

2. 培训。长期开展线上线下“碳交易员”、“碳核查员”、“碳资产管理师”等培训。

3. 宣传活动。结合全国节能宣传周、全国低碳日、六五环境日、世界地球日开展各类活动，传播绿色低碳理念，营造低碳发展和绿色生产生活氛围。

The National Carbon Market Ability Construction Center (Chengdu) was established with the consent of the National Development and Reform Commission and the Sichuan Provincial Development and Reform Commission, relying on the Sichuan United Environmental Exchange. The faculty and think tank team are composed of relevant officials, experts and scholars from more than 30 relevant domestic and international departments and institutions to carry out various forms of capacity-building activities to deal with climate change for market participants. Promote the smooth start and smooth operation of the national carbon market.

1. Customize services. According to the actual situation of various enterprises and institutions, provide customized plans for professional ability improvement and be responsible for the implementation.

2. Training. Long-term training for online and offline "carbon trader", "carbon checker", "carbon asset manager", etc.

3. Publicity activities. In conjunction with the National Energy Conservation Publicity Week, National Low Carbon Day, June 5 Environment Day and The World Earth Day, various activities have been held to spread the concept of green and low carbon, and create an atmosphere of low-carbon development and green production and living.

用能权交易服务
Energy rights trading services

用能权是指在能源消费总量和强度控制的前提下，用能单位经核发或交易取得、允许其使用或投入生产的综合能源消费量权益。

四川省用能权有偿使用和交易为场内交易，交易主体购买或出售用能权指标的行为须通过四川联合环境交易所进行。我们为客户提供公开、公正、公平和诚信的交易环境，接受主管部门的指导、监督和社会监督。

四川环交所为重点用能单位、其他用能单位、社会机构和组织，以及其他交易参与人，提供用能权注册登记、交易、清算交收、信息查询及发布、能力建设等服务。

The term "energy use right" refers to the comprehensive rights and interests of energy consumption obtained by energy-using units through verification or trade, which are allowed to use or put into production on the premise that the total amount and intensity of energy consumption are controlled.

The paid use and trading of energy rights in Sichuan Province is an transaction on exchange, and the purchase or sale of indicators of energy use rights must be carried out through the Sichuan United Environmental Exchange. We provide customers with an open, fair, fair and honest trading environment, subject to the guidance, supervision and social supervision of the competent authorities.

Sichuan United Environmental Exchange provides services such as registration of energy use rights, transactions, clearing and settlement, information inquiry and release, capacity building for key energy users, other energy users, social institutions and organizations, and other transaction participants.

绿色技术交易与服务
Green technology transactions and services

绿色技术是指降低消耗、减少污染、改善生态，促进生态文明建设、实现人与自然和谐共生的新兴技术，包括节能环保、清洁生产、清洁能源、生态保护与修复、城乡绿色基础设施、生态农业等领域，涵盖产品设计、生产、消费、回收利用等环节的技术。

Green technology refers to the emerging technologies that reduce consumption, reduce pollution, improve ecology, promote the construction of ecological civilization, and realize harmonious symbiosis between man and nature, including energy conservation and environmental protection, clean production, clean energy, ecological protection and restoration, urban and rural green infrastructure, ecological agriculture and other fields, covering product design, production, consumption, recycling and other technologies.
